KYOCERA UNIMERCO Fastening A/S

KYOCERA UNIMERCO Fastening supplies a wide range of fastening solutions for the construction industry, e.g. nailers, finish nailers, rebar tiers, T-nut solutions, compressors and accessories. For nearly 50 years, the company has been selecting and developing the most user-friendly and effective fastening tools. Close cooperation with the distributors and end-users ensures professional advice about the individual products and accessories, and about optimum use and maintenance. The Danish company was established in 1964 and is headquartered in Sunds.

The company is part of the KYOCERA UNIMERCO group, founded in Denmark in 1964 and then named UNIMERCO. In 2011, all activities were acquired by Japan-based KYOCERA. This has created an even stronger company with a larger range of products, a wide network of companies and distributors all over the world, and an ambitious growth plan.
